ITALY HAS RATIFIED
THE PEACE TREATY
BY ROYAL DECREE

Virtual Completion of Ratification by The Allied Powers Makes Pact Effective.

PACT IS OPERATIVE
WHEN THREE RATIFY

French Chamber of Deputies Expected to Complete Work Of Ratification at Once.

(By Associated Press.)

Rome, Italy, October 7.—A royal decree has been issued ratifying the peace treaties, it is announced officially.

(By Associated Press.)

Paris, October 7.—King Victor Emmanuel of Italy signed a royal decree ratifying the German and Austrian treaties yesterday, according to a dispatch received here.

Ratification by royal decree of the King of Italy virtually completes the steps necessary for putting into effect the pact between Germany and the Allied Powers, which stipulates it would become operative when ratified by three of the great powers.

The British Parliament has already ratified the treaty, and the French Senate, which will take up the treaty today, is expected to follow suit of the Chamber of Deputies in its ratification.

City Under Military Control With 1100 Soldiers on Duty

(By Associated Press.)

Gary, Indiana, October 7.—Gary, site of one of the United States Steel Corporation's greatest plants, affected for more than two weeks by the strike in the steel industry, today was under military control of approximately 1,100 federal soldiers, commanded by Major General Leonard Wood, commandant of the Central Department of the army.

Five hundred more troops, fresh from riot duty at Omaha, Nebraska, were to arrive later today.

The call for federal troops was made by Governor Goodrich of Indiana, after thousands of strikers paraded and held mass meetings after being forbidden by city and state officials.

With the parade yesterday, according to the Governor's statement, the situation became so threatening it was thought advisable to ask for federal troops.

Upon arrival of the soldiers and issuance of a proclamation proclaiming military control, the state militia were ordered to Indiana Harbor and East Chicago, Indiana, where martial law was declared.

It was made plain that martial law had not been proclaimed in Gary.

Chief Executive Now Eating And Sleeping Well Announces Dr. Grayson.

Will Be Kept in Bed For Several Days to Prevent Backset

(By Associated Press.)

Washington, October 7.—President Wilson continues to improve, and he is eating and sleeping well, said a bulletin issued at 11:25 o'clock this morning by Rear Admiral Grayson, the President's physician, Rear Admiral Stitt, head of the Naval Medical School, and Dr. Ruffin, of this city.

Rear Admiral Grayson will keep the President in bed for a time yet, despite Mr. Wilson's earnest desire to attend to official duties. Messages of sympathy continued to reach the White House today.

The bulletin was issued after the usual morning consultation. Supplementing the bulletin Dr. Grayson said the President's good appetite was a favorable sign.

DISAGREEMENT
BRINGS LABOR
MEET TO HALT

Rules Proposed Are Objected To By Representative of The Public.

Adjournment Until Tuesday Afternoon

(By Associated Press.)

Washington, October 7.—Disagreement over rules proposed for the governing of the industrial conference resulted in the conference adjourning suddenly today after Franklin K. Lane, Secretary of the Interior, had been elected permanent chairman. It met again at 2:30 this afternoon.

As proposed by the committee the rules provided that all conclusions and decisions must be arrived at by unanimous vote of the three groups representing capital, labor and the public, while the decision of each individual group required a majority of members of that group. The rule was attacked by John Spargo, of New York, a delegate representing the public.

Secretary Lane in his address as chairman, said he was sure the gathering would be able to work out a solution of industrial trouble.

STEEL PLANTS
STILL RUNNING

(By Associated Press.)

Pittsburg, October 7.—Steel plants in this district that started operation yesterday after a two weeks shut down due to the steel strike continued operations today, according to reports from the companies.

It was stated the situation showed some improvement from the standpoint of the operators.

ARBE PLAYS IMPORTANT PART IN ADRIATIC PROBLEMS

A view of the town of Arbe, near Fiume, on the eastern Adriatic shore.

The town of Arbe is built on the rocky formation of the eastern Adriatic shore, rising abruptly from the sea. In contrast, the Italian side of the Adriatic is low

and marshy, with few harbors and hence naval bases are difficult to protect on the Italian coast. During the war Austrians made raids on Italian towns from behind these

rocky shores, and this is one of the reasons why Italy demands Arbe and other Adriatic towns for "self protection." The situation in Italy remains critical.

GERMAN GENERAL GOES
OVER TO BOLSHEVISTS
SAYS A BERLIN REPORT

Von Der Goltz, After Rupture With Berlin Government, Unites With Russian Reds.

Commanded Forces in Baltic Provinces Until Recalled For Insubordination.

Caused Serious Dispute Between Huns and Supreme Council.

(By Associated Press.)

Copenhagen, October 7.—General von der Goltz, commander of German forces in the Baltic provinces, whose activities there have recently led to sharp exchanges between the Allied Powers and Germany, has, with his staff, joined the Russian Bolshevik forces, according to a Berlin dispatch received here quoting a report from the Petrograd telegraph agency.

There is no confirmation of the report obtainable here. The case of General von der Goltz has been in dispute between the supreme council at Paris and the German government for several months.

The withdrawal of these troops was long ago demanded by the Allies, who threatened Germany with the cutting off of her provisioning and with other penalties if she did not speedily secure their removal.

ALL IS QUIET
NEAR CHICAGO

Chicago, October 7.—With federal troops at Gary; martial law enforced by militiamen in Indiana Harbor and East Chicago, and Illinois local authority reinforced at Waukegan and South Chicago, quiet reigned today in the Chicago District of the steel industry. The usual claims and counter claims were in evidence.

URGE RANK OF
VICE-ADMIRAL

Washington, October 7.—Permanent rank of Vice-Admiral for Rear Admirals Sims, Benson and Mayo is proposed in a compromise bill ordered favorably reported today by the Senate Naval Committee.

President Wilson had recommended the rank of full admiral for Sims and Benson and this was provided for in the measure as it passed the House.

Perfect Weather at Redland Field for Sixth of Series

Monster Crowd Again Watches The Game.

(By Associated Press.)
Redland Field, October 7.—Perfect baseball weather with the sun shining brilliantly and a cloudless sky greeted the baseball fans that journeyed to the park two hours before the beginning of the sixth game of the world series between the Reds and White Sox here today.

At noon the pavilions were almost filled to capacity, but the bleachers seemed slow in arriving and while the right field stand was half filled the left field bleachers were empty.

Manager Gleason announced he would pitch Kerr and Manager Moran said he would pitch Reuther.

COLORADO URGES
SUMMER WHITE
HOUSE ON PEAK

(By Associated Press.)
Denver, Colo., October 6.—The movement to establish a "Summer White House" on Mount Falcon, 15 miles from Denver and in the Rocky Mountains, has been revived by Colorado citizens. The war interrupted the campaign started several years ago with the object of providing a picturesque mountain palace where presidents of the United States might find refuge during the warm months.

The building, it is estimated, would require an initial expenditure of \$50,000 and leaders of the campaign plan to raise \$250,000 additional to complete the entire structure and put the grounds in shape.

The summer home would be held in trust by the governors of the 22 states west of the Mississippi river, acting as a board of regents.

RAISES A KICK
AGAINST LEAGUE

(By Associated Press.)

Washington, October 7.—Presentation of telegrams and letters which Senator Brandegee, republican, of Connecticut said to have been sent to one of his constituents by the League to Enforce Peace, led to a spirited debate today in the Senate.

The communications he said showed how the League was spending money in an effort to force ratification of the peace treaty without amendment.

Declares Gratitude of Belgian Nation Great For Part 37th Played in Conflict.

Pleased to Render Homage To Men On Their Native Soil

(By Associated Press.)

Cleveland, O., (On Board King Albert's Train), October 7.—King Albert of the Belgians paid tribute today to the gallantry of Ohio's 37th division, when he awoke within the boundaries of the state of Ohio. His Majesty's message said:

"The King takes occasion to render his homage to Ohio's magnificent troops for the brilliant part they took in Belgium."

The King, as commander of the group of armies of Flanders, is profoundly happy to be able to bring to these heroes on their own territory this tribute of admiration of their Belgian brothers in arms, and the expression of gratitude of the entire Belgian nation toward the deliverance of which the glorious Thirty-seventh Division contributed so much."

SAYS HUSBAND FEARS RESULT OF HER EATING

Mrs. Caseman Marvels at Increase of Appetite Since Taking Trutona — Feels Like New Person.

Portsmouth, Ohio, October 6.—"My husband says he'll have to call for help if I keep on eating the way I have for the past few days since taking Trutona," Mrs. Eliza Caseman, 38 years old, a well known Portsmouth woman of 519 Seventh street, said recently. Mrs. Caseman has lived in Portsmouth for nearly ten years and she is well known here.

"Mine was a complication of troubles," she continued, "Constipation bothered me. I frequently experienced dizzy spells and would often be sick at my stomach. For the past year I've suffered from a pain in my side which, at times, was so severe I just thought I couldn't stand it. I seldom ate very much and all last spring I had such bad pains in my back. I tried different means to get relief but my attempts were futile.

"I simply feel like a new person, since taking Trutona. Why, for years past I haven't eaten three meals a day but now, I eat three a day and then get hungry between meals. I haven't experienced the pain in my side for some time now. In the past I could not lay on my side and didn't sleep well, but in the past few nights I've slept like a log. I've gotten rid of the constipation, too. One bottle of Trutona has done me more good than all the other medicines I've ever taken put together. It's the best medicine I've ever taken and I can recommend it to any one suffering as I did."

Trutona is now being introduced and explained in Washington C. H., at Frank Christokher's.

Tires are no exception to the rule — "you get what you pay for"

A few months ago you could gain a fair estimate of a tire's final cost—real cost—by dividing its price by mileage guaranteed.

Comparative guarantees, therefore, indicated comparative values of tires.

But now you are much more certain to get your full money's worth by selecting a tire on a basis of price divided by the number of miles past records have shown that it will actually deliver.

In other words, the price of a tire—based on the quality that gives excess mileage—is what it will pay you to consider before deciding which tire to buy.

HOOD prices have always been a barometer of relative tire values—and always will be.

Ask us to show you WHY the HOOD EXTRA PLY is the lowest price tire on the roads to-day

WHITE SOX CAPTURE SIXTH AFTER A LONG UP-HILL FIGHT

Reuther Knocked Out of Box
By Hard-Hitting Sox

KERR WINS SECOND

Ring Failed to Check The Sox
In Their Determined Rush
To Check Reds.

(By Associated Press.)

Redland Field, October 7.—The Chicago Americans won the sixth game of the world series here today making a great uphill fight and annexing it in a tenth-inning rally by a score of 5 to 4.

Kerr pitched the full game despite being hit hard. For his teammates were also in a hitting mood.

Reuther, who won the

"DUTCH" REUTHER

Walter H. Reuther was born September 12, 1893. Went directly from St. Ignace's college, in California, to Pittsburg, in 1913. Released to Los Angeles. Finished season with Sacramento. With Vancouver in Northwestern league in 1914. With Vancouver and Salt Lake City in 1915. With Spokane and Portland in 1916. Joined Chicago Cubs in 1917 and sold to Cincinnati in mid-season.

opening game of the series for Cincinnati, was knocked out of the box in the sixth inning, the score standing 4 to 3 in the Reds' favor. No outs and a man on second, a timely hit brought this man home and in the tenth—a double right off the reel and a single shortly after enabled the American leaguers to put across the winning run.

FIRST INNING.

J. Collins opened hostilities by popping a high fly in back of second base that Rath captured. Roush came in fast and got E. Collins' low fly. Weaver nailed the first ball and drove it to left, but it hit a few seats foul. Weaver singled through Kopf into center field. The Cincinnati shortstop could not quite get to it. Jackson sent an easy pop to Groh. No runs, one hit, no errors.

Rath hoisted to Risberg on the third ball pitched. It was an easy out. Daubert batted the first ball pitched to Kerr, who tossed him out at first. Groh doubled to right center. It was a liner that landed between Felsch and J. Collins and was retrieved quickly by the latter. Roush singled to Risberg, but Groh was caught by overrunning third. Risberg to Weaver.

ver, Roush's hit was over toward the second sack. No runs, two hits, no errors.

SECOND INNING.

Felsch sent a long fly almost to the bleachers but Neale got under it, capturing it. Gandil put a Texas Leaguer out towards right, but it fell a few inches foul. Kopf took Gandil's bounce and tossed to Daubert for the put out. Risberg hoisted a high one to Neale. No runs, no hits, no errors.

The crowd gave Duncan an ovation as he stepped to the plate. Duncan was safe when Risberg fumbled his easy grounder. Kerr became unsteady and walked Kopf. Neale forced Duncan at third. Kerr to Weaver. Neale attempted to sacrifice but Kerr made a quick throw to third. Rariden forced Neale. E. Collins to Risberg. Kopf taking third. Risberg claimed that Neale interfered with him but the claim was not allowed. Reuther bounced to Kerr who threw to first for the put out. No runs, no hits, one error.

THIRD INNING.

Reuther failed to get the ball over the plate and walked Schalk. Kerr sacrificed. Groh to Rath. Schalk went to second. It was a well laid bait. J. Collins fled to Roush in short left center. Duncan made a great running catch and captured Eddie Collins' liner in left center. No runs, no hits, no errors.

Duncan was cheered as he walked to the bench. The outfield played in for Rath. Rath proved easy. Eddie Collins taking his grounder and tossing it to Gandil. Daubert singled to right. It was a clean drive right over Eddie Collins' head. Groh struck out, the third strike being called on him. Daubert stole second. He slipped off the bag after reaching it but scrambled back before E. Collins could tag him. Roush was hit by one of Kerr's fast balls but he trotted to first. Duncan doubled to right center scoring Daubert and Roush. It was a mighty wallop. Felsch ran away back and caught Kopf's long fly. Two runs, two hits, no errors.

FOURTH INNING.

Duncan took Weaver's line drive that went almost to the left field crowd. Rariden went back almost to the grandstand and nailed Jackson's high foul. Felsch singled through the pitcher's box, the ball rolling to center. Kopf threw out Gandil, stopping in time to get his grounder after starting for second to cover the bag, as Felsch went down. No runs, one hit, no errors.

Neale tripped to right center. There was an argument that he did not touch one of the bases but the umpires did not allow the claim. Rariden sent an easy bouncer that Eddie Collins grabbed and tossed him out at first. Neale holding third. Reuther doubled over the third base sack the ball hitting the left field pavilion. Neale scored. Rath drove an easy one to Risberg, but the latter hit Reuther going to third. In his attempt to put him out Reuther scored. Rath taking second. Rath stole third. Daubert hoisted to Jackson and Rath was caught at the plate for a double play. Schalk getting the put out. It was a great throw of Jackson's. Two runs, two hits, one error.

FIFTH INNING.

Risberg walked. Reuther failed to put the ball over the plate. Reuther appeared to be becoming unsteady. Kerr singled, advancing both runners a base. Risberg taking third and Schalk second. Risberg overran third but Groh failed to put Kopf's throw on him. J. Collins fled to Roush and the latter's throw was so fast that Risberg had started for home turned back and held third. Ring began warming up for Cincinnati. Eddie Collins fled to Roush and Risberg scored. Schalk failed to go to third on the play and Kerr ran down to second. Groh seeing the predicament ran over and touched Kerr. Roush got

DICK KERR

Richard Kerr Jr., born in St. Louis, July 3, 1893. He is a left handed pitcher and batter. Kerr began in Paragould, Ark., in 1909. His first major league trial was with St. Louis Browns, in 1917. He went back to Milwaukee team, from which Chicago obtained him this year. He is 5 feet 7 inches, weighs 155 pounds, is married, and lives in Paris, Tex.

an assist on the play. One run, one hit, no errors.

Groh sent a high fly to Felsch. J. Collins after making a good run for it captured Roush's fly. Felsch went way back and misjudged Duncan's fly, getting his hands on it but dropping it. Duncan reaching third. Kopf up. Risberg threw out Kopf. No runs, no hits, one error.

SIXTH INNING.

Weaver popped a Texas Leaguer that went for a double when Kopf and Duncan played an Alphonse and Gaston act. Jackson singled into center and Weaver crossed the plate. Felsch doubled to the center field crowd. Jackson scored. This was enough for Reuther and Ring relieved him on the pitching mound. Ring was very slow and deliberate. Gandil hoisted to Daubert who got the ball in back of first base. Felsch holding second. Kopf took Risberg's grounder and threw to Daubert, putting him out. Felsch took third. Schalk singled between short and third, scoring Felsch and tying the score. Schalk stole second. Groh grabbed Kerr's grounder and retired the side by throwing him out at first. Groh made a great stop and a beautiful throw. Three runs, four hits, no errors. The Sox hit Reuther hard and their drives off Ring were also of the Wallop character.

Neale singled through the pitcher's box. The ball bounded a little too high for Kerr. J. Collins took Rariden's line drive. Neale holding first. The crowd began to handclap in unison. Ring struck out, making a healthy swing at the third strike but missing. Neale was out, stealing. Schalk to Risberg. No runs, one hit, no errors.

SEVENTH INNING.

Leibold batted for J. Collins and will play right field for Chicago. Kopf came over fast and took Leibold's grounder, throwing him out at first. Collins hoisted a high one that Roush got under and caught. Weaver batted left handed and Rath took his grounder and threw him out at first. No runs, no hits, no errors. Rath hoisted into short left for a Texas League single. Jackson made a gallant attempt and turned a somersault trying to get it but barely missed. Daubert attempted to sacrifice the first ball but it rolled foul. He laid the next one down nicely for a sacrifice, Kerr to Gandil. Rath went

to second. Groh walked after fouling off several. Groh succeeded in working Kerr for a pass. Rath on second. Roush forced Groh at second. Risberg to Eddie Collins, who completed a double play by throwing to Gandil and getting Roush. No runs, one hit, no errors.

EIGHTH INNING.

The outfielders played deep for Jackson. Jackson walked. Ring temporarily lost control and passed Jackson, the first man up in this inning. Felsch sent a high fly to Neale Jackson holding first. Ring also walked Gandil, and appeared very unsteady. Jackson on second. Roush came in fast and got Risberg's line drive and then ran to second, tossed the ball to Rath, retiring Jackson for a double play. It was a wonderful catch, the hit looked safe so much so that Jackson rounded third. No runs, no hits, no errors.

Gandil ran almost to the right field side seats and took Duncan's foul. Kopf lined out to Kerr. Kerr apparently hurt his hand in catching Kopf's liner. Kerr resumed and Neale singled to left on his first pitched ball. Rariden singled, the ball bounding out of Kerr's hands. Neale going to second. Risberg grabbed Ring's grass cutter and tossing to Eddie Collins, forced Rariden for the third out. No runs, two hits, no errors.

NINTH INNING.

Schalk fanned, the final strike being called on him. Kerr drove to Ring who tossed to Daubert getting him. Leibold walked. Ring was having trouble finding the plate. Leibold stole second, beating the throw easily, after getting a big lead. Eddie Collins lifted a high fly to Roush. No runs, no hits, no errors.

Weaver threw out Rath at first. Daubert singled to center. It was a clean line drive. Risberg took Groh's grounder and tossing to Eddie Collins forced Daubert at second. Groh safe at first. Groh was out stealing. Schalk to Eddie Collins. No runs, one hit, no errors.

The game then passed into extra innings.

TENTH INNING.

Weaver opened the tenth with a double to left field that Duncan could not quite reach. Jackson's first sacrifice attempt went foul. Jackson singled, Weaver going to third. Jackson laid down a bunt and beat it out. Felsch struck out, taking a swing at the final one. Gandil singled into center scoring Weaver and putting Jackson on second. Risberg lined to Kopf who threw to Rath at second, doubling Jackson. One run, three hits, no errors.

Collins threw out Roush at first. Duncan fouled to Schalk behind the plate. E. Collins threw out Kopf at first. No runs, no hits, no errors.

URGE CHANGE OF STREET NAMES

(By Associated Press.)

Berlin, September 26.—(By Mail)—Protest is entered by Attorney Rosenfeld, former Prussian Minister of Justice, that despite the months that have passed since the revolution, the abdication of the Emperor and the overthrow of 30 or more princes and princelings, kings and whatnot, the streets of Berlin still bear inordinately large number the names of royalty.

He cites a few such as Kaiser Wilhelm street, a Koenig, a Friedrich, a Karl, Prince Louis Ferdinand, Prince and Princess street.

The names of former military leaders and generals should go also, he argues citing such streets as Zieten, Bluecher, Gneisenau, Scharnhorst, Moltke and others. He objects also to the naming of streets after the military, such as the Dragoner, (dragons) and the Jaeger, (cavalry) in these piping days of revolution and republic.

A Musical Ideal that cost three million dollars

Would you spend three million dollars to get music?

Thomas A. Edison did.

And when he found it—he gave it to all the world.

The story of the perfection of the New Edison is like the story of the wizard's other successes. The incessant striving, the tireless search, the uncompromising ideal—until the goal was attained.

The NEW EDISON

"The Phonograph with a Soul"

Thomas A. Edison spent three million dollars in experiments before the New Edison, the phonographic triumph, was perfected.

The whole world is now sharing the wondrous gift of music which this fortune bought. For Edison makes duplicates of the three million dollar original. You will find them at this store. Ask for the official Laboratory Model.

The Humor Of It.

A great deal of weighty argument against the strike craze, which seems to have seized upon the workers of the nation to the extent that it is a serious menace to our industrial life, has been offered, numberless appeals to patriotism have been made, the forums of the land resounded with the wordy denunciations of the fiery orators but, with it all, the strike fever has raged unabated.

Now the cartoonists and the humorists of the land are taking up this all-important subject and with their unusual and delightful talents are picturing the ridiculous and the humorous phases of the attitude assumed by the workers under the leadership of the ultra-radicals.

We believe that the cure for the strike mania has made its appearance, in the cartoons and the squibs of the artists and the humorists.

The American people have become great largely because of their sense of humor, their ability to see the ridiculous and the impractical in situations which baffle solution by the more serious processes.

The American people do not take so kindly to the heavy harrangues of the ponderous orators as they do to the humor of the cartoonists who can and do, with rare ability, expose the serious fallacy in the lighter vein of thought.

The American workingmen can stand against the abuse and the arguments of their opponents, but against the shafts of the wits of the land, the wholesome drawings of the cartoonist based on truth and fact and which will call forth, at his expense, the laughs of his fellowmen, the hostility of the honest worker will vanish as a cloud before the rising sun.

Many a serious complication has been cleared away by humor when dry logic failed. The strike menace seems now destined to pass into history as another victim of American humorists and a condition which has baffled learned statesmen bids fair to vanish before America's wonderful sense of humor and keen appreciation of the ridiculous.

The Champions

Those splendid baseball players who, collectively, constitute the famous Cincinnati Reds of 1919, the most talked about and, right now, the most respected club in all the realm of baseball, the surprise team, the miracle team, which struck boldly out, last Wednesday, for the world championship, meeting the Chicago White Sox as their opponents, seem to be swinging along irresistibly toward the highest peak in all baseballdom.

The wise critics and baseball dopesters have been defied and dumfounded by this wonderful team which the genial Pat Moran has brought together. Even their success in the National League did not satisfy the wise critics who withheld credit justly due the splendid team. Even after New York had been decisively bested there were many who couldn't see any reason for the success of the Reds save luck. They were heralded as easy picking for the powerful White Sox.

Again have Pat Moran and his ball players surprised the critics and justified the hope and the faith of the loyal supporters of the team.

Before these lines are read by the good people of Fayette county the grand old Reds may have won the greatest honors in baseball—not by any caprice of luck, but by hard scientific and earnest work, the best work any baseball club ever showed on the diamond.

We believed in the Reds from the start of the world series. We believe them to be the best ball team in the world—bar none. They have proven their right to the winner's crown by work on the field, never surpassed by any club in the history of the greatest game ever played.

British Strike Settled

The great strike of the British railway workers has been terminated and all over England the great transportation lines are once more running trains on schedule, with an extraordinary effort to handle the accumulation of business.

The threat of civil war has been averted and a great industrial nation is once more shaping its affairs to meet the demands of an impoverished world.

With dramatic suddenness and with, so far as the public was advised, no notification of even pending possibilities, the great strike came to an end.

The splendid good, common sense which has made the English speaking people what they are today, brought them, with their spirit of true freedom and generosity to the deserved mastery of the world's affairs, obtained the mastery over the contending factions, reason overthrew passion, and the settlement of all the differences, which had brought a great government and a great people face to face with revolution, quickly followed.

The advantage which the settlement means to the world cannot be over-estimated.

POETRY FOR TODAY

MUSTERED OUT.

It is fine to be back in God's country
once more,
And yet, it is just a bit tame
To be plodding along as you did
before—
It will never be just the same!

For who can forget those starless
nights,
When the furious cannon roared—
When the skies were aflame with
quick-darting lights
And the boche flares heaven-ward
soared.

It was hell all right, up there in the
line,
And grim death always stalked in
your track,
But when thoughts of those days are
thriving your mind,
Don't you wish—sometimes—you
were back?

OLD SORES, PILES BURNS AND SCALDS HEAL VERY QUICKLY

Blackmer & Tanquary sell an ointment called San Cura that surely does do anything it is advertised to do or money back.

Thos. F. McCauley, Cooperstown, Pa., cut his finger; blood poison set in; arm swelled terribly; friends despaired; said arm must come off. San Cura Ointment drew out water and dark pus; agony ceased; arm and hand soon as good as ever.

It quickly draws out poison from sores, fever sores, ulcers, boils, carbuncles, cuts, burns, scalds and bruises.

For itching, bleeding or protruding piles, it has received the highest endorsements, while innumerable cases are recorded where eczema, tetter and salt rhum were relieved in the shortest possible time. San Cura Ointment is 30c, 60c, \$1.20 and \$2.40 a jar.

Everybody should use San-Cura Soap. Its antiseptic, prevents germ life, keeps the skin clear, soft and velvety, 25 cents. Thompson Medical Co., Titusville, Pa. Advt.

Gets Quick Relief from Sore Throat

During the coming raw days of fall and winter you are particularly apt to develop sore throat, lumbago and stiffness of the muscles. Children also are more apt to contract colds and kindred ailments at school. Be prepared. A bottle of Houstonia in your home is your safeguard.

Mrs. C. E. Rieder, 959 East Long St., Columbus, Ohio, says: "I am troubled with a weak throat and every cold I contract settles there. I find Houstonia liniment the best remedy I have ever used. One application always relieves my sore throat."

It's easy to use Houstonia — no pain, smarting or blistering. It sterilizes open cuts, burns, scalds or bruises and soothes while it heals. Ask your druggist for Houstonia — it's (The Original Jones' Liniment), \$1.00. Half size 50c, trial size 25c. Dr. J. C. Jones Co., So. Charleston, Ohio.—Adv.

Encouraging Bolshevism

Everything that falsely encourages unrest also encourages bolshevism.

Misunderstanding of American industrial organization, and of its benefits to mankind, leads to unrest, dissatisfaction, and radicalism.

For example, the Federal Trade Commission tells the public that the large packers had an agreed price for lard substitute (made of cotton-seed oil.)

It reproduces letters taken from the files of one of the packers, showing that such agreed price existed.

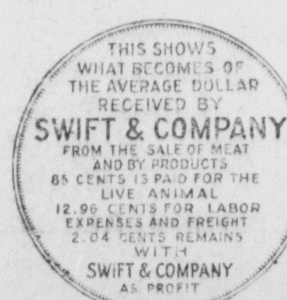

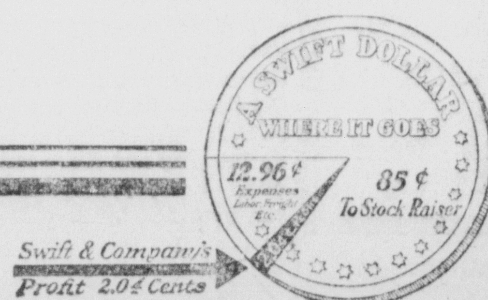

But it failed to mention that the agreed price was determined at the request of and in co-operation with the Food Administration!

Even the Department of Justice, in its unjust attempt to create prejudice against the packers, has made public these same letters, with no explanation.

How long must this kind of misrepresentation continue? In so far as it is believed, it not only breeds discontent, but results in injustice to our industry.

RANDOM NOTES

SOCIAL : PERSONAL MENTION : CLUBS

Impetus for the entire year was given in the meeting of the Daughters of the American Revolution which on Monday afternoon opened the Fall and Winter season. Mrs. G. W. Blakeley had tendered the use of her home and the affair was really a beautiful party, with the exceptional interest of the day accentuated by delightful social features. A single large vase of roses in perfect harmony with the hangings and furnishings of the handsome rooms gave an added touch of beauty to the attraction of the settings.

Assisting Mrs. Blakeley as the October hostess were Mesdames Ballard, Barnett, Allen, Boggs, Bay, Briggs, Misses Allen, Anna Bell, Adams, Lizzie Bell, Briggs.

There was a large out-pouring of the Daughters and a number of favored visitors, including the Presidents of all the Washington clubs.

Mrs. Harriet Forsyth Woodward, Regent, presided with her usual gracious dignity and extended the club greeting to members and friends, after which Mrs. Bella L. Ustick, chaplain, gave the invocation.

The business session included the reading of letters, the most important one from the President General, Mrs. Guernsey, who has been in France since August in the interest of the National Society's reconstruction work in France, that of restoring Tillyoloy. The Daughters have contributed \$42,500 to this work and \$137,990 to fatherless children of France.

In response to a request from the Regent for vacation experiences, Mrs. James A. Crawford gave a graphic and entertaining account of a motoring trip last Fall to the Crawford's winter home in Florida and the return trip in the Spring, this trip including stops in Washington, D. C., Baltimore and at various historic sites enroute.

The Daughters had been fortunate in securing Miss Grace Stuckey, of Cincinnati, to speak upon conditions in Europe as she had found them before her recent return from overseas war work. The fact that Miss Stuckey has always been considered as belonging to Washington Court House despite her year's residence in Cincinnati, added little to pleasurable anticipation.

Withal that appetites for overseas information are now a little jaded, Miss Stuckey brought to her listeners new ideas and impressions as they had been formed under her own observation, with so much freshness and spontaneity and was so charming in her presentation that she awakened the enthusiastic appreciation of her hearers to an unusual degree.

During the greater part of her stay over seas Miss Stuckey was engaged in work of the Y. M. C. A. huts at Tours and, a fluent and lucid speaker, she gave keen insight into this wonderful work.

As many as 20,000 casualties went through at one time and their eagerness to be served from these canteens led to an onrush of messengers, motorcyclists and transport corps willing to surrender sleep to obtain these supplies.

After being transferred to a cavalry school, the speaker was thrown in more direct contact with the French and later when sent on to Germany with the Army of Occupation, gained personal knowledge of the Germans. Her talk gave illuminating insight into the viewpoints of these two nations.

The attitude of the French towards Americans frequently disappointing.

THE DE WEES STUDIO

Miss Stuckey claimed to be largely due to German propaganda, inculcating the idea that the Americans came with the idea of locating and taking over their country rather than as their saviors. It was the general verdict that France barely recovered from the war of 1870 when engaged in this war could never withstand another attack and the appalling contrast between torn, devastated France and flourishing Germany, her country beautiful and absolutely unmarred by all the havoc around her, aroused those who entered Germany to bitter protest.

Germany's children are well fed and flourishing; there is plenty of food; the wounded have been transferred and the only indication of war is the absence of horses and cattle. Germany has been given orders to extend to Americans every possible cordiality and to impress them as a kindly, misquoted nation.

The speaker said that Germany's mental attitude was beyond our understanding—there was no repentance—only regret over failure—Germany feels she has to have France, has to have Belgium and openly boasts that "in 10 years we'll be back again, maybe in seven and we'll have with us Russia and Japan." "Just as sure as I am standing here," said Miss Stuckey, "there will be another war. The Germans are now working over their old tricks so as to avoid mistakes in the next one."

"The tragedy of the whole war is that of the children of France and Belgium. So terrible have been the sights witnessed and the sufferings undergone that physicians say they will never be normal."

Both the French and Belgians are going back to their fields and, while the shopkeepers of Paris have made millions, the people of the districts are indeed pitiable.

Miss Stuckey closed her talk with a tribute to the American soldier, superb, almost super-human in his courage, endurance, loyalty and courtesy.

A beautiful Caruso record, "For You Alone" was played and the afternoon ended in a thoroughly pleasurable social hour, during which the hostesses served delicious refreshments.

Mr. and Mrs. Jno. Pratt and family pleasantly entertained at a most enjoyable dinner Sunday; Mr. and Mrs. Alonzo Driscoll, Mr. and Mrs. Roy Jackson, daughter Helen, Mrs. Anna Mason, of Greenfield; Miss Sue Pratt, Washington C. CITIZENS ASKED TO RECONCILE NEW STREET PLAN

Important Meeting to be Held At Council Chamber Wednesday Morning.

Having reached no definite agreement on the proposed extension of Grove avenue from Washington avenue to the intersection of Lewis with Market street the property owners of that section of the city are asked to attempt to settle the question with the aid of the city council members on Wednesday morning at eight o'clock.

It is expected that after hearing the proposals of both sides of the case, those for and against the improvement, council will take final action.

As proposed in the Rogers' petition it is asked that the street be extended in a straight line from the intersection of Grove avenue to a point a few rods from the Lewis street intersection and that the street then be slightly turned so as to meet Lewis street squarely. This would mean the taking over of the Coburn property on Willard street and slightly infringing on the property belonging to John Daily.

In making the proposed extension according to these plans the lot containing the property of Mrs. William Waddle would be required on one side, leaving about six feet between the house and the street. Some few feet of the Hicks lot would also be required.

Not favoring the improvement, according to the plans explained in the Rogers' petition, is a group advocating the adoption of a different plan.

This group recommends that the extension be started on the Hicks lot and then over to Willard street and causing the requisition of the J. W. Boyer property instead of the Coburn property.

It is pointed out by those disfavoring the second plan that a jog will be caused in the street at Washington avenue and that the street will come out on the Market street side not at the Lewis street intersection, but fifty feet, the width of the proposed avenue, beyond the termination of Lewis street. This will cause another break in the street.

If a compromise is not reached at the meeting of the property owners in the council chamber together with the members of council it is expected that definite action will be taken by council either for or against the extension.

The agitation has attracted widespread discussion and attention among citizens. It is a matter which will largely mold the future development of the eastern part of the city.

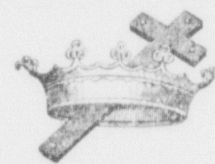

Those favoring the improvement are represented by E. L. Bush, Gregg, Patton & Gregg are retained

by the citizens not favoring the extension and the City Solicitor Troy Junk is looking after the interests of the city.

"It is undeniable that the great mass of intelligent people of Europe and America have come to the belief, as a result of the catastrophe that befell the world in 1914, that a different international organization was essential to the peaceful development of humanity.
The Covenant of the League developed at the Peace Conference and will go to all the signatory states for ratification. Ought it be ratified?
The answer can only be given when we have decided what we mean by the thing itself.
This book, written in simple and non-technical language, is intended to appear to both the intelligent layman, and students in need of a textbook on the subject.
Part I deals with the history, philosophy, and organization of a league of nations; Part II with international co-operation as applied to concrete problems; Part III with the place of

the United States in a League of Nations."
The book is fresh from the Atlantic Monthly Press, and each chapter has been written by competent authors and students.

12 INDICTMENTS REPRESENT WORK OF GRAND JURY

Blanton Indicted For Attempt to Burn Property to Prejudice Insurer.

Jurors Instructed To Keep Provisions of Valentine Act in Mind.

The grand jury, in completing its work for the time being, presented 12 bills, ignoring two cases, and examined 27 witnesses. Five of the indictments were secret.

Recommendations were made for painting the outside wood work of the county jail and placing a new iron door at the entrance to the women's department, as well as repair of the front veranda of the jail.

The indictments made public are: Harvey Blanton, for burning property with intent to prejudice the insurer, with count for arson.

Carl Smith, burglary of M. I. Sachs store, August 6th, when \$4.70 in money was taken and goods stolen.

Lewis Newland—for neglecting to pay for keeping children in the County Children's Home.

George Lower—Two indictments for rape. One indictment is based on a crime on July 3rd and the other on a crime on September 21st.

Joe Kale—carrying concealed weapons.

John Elder—for keeping a place where gambling was permitted on July 9th, when it is charged, a game of craps was permitted.

None of the indictments, it is noted, were returned under the Valentine Anti-Trust, attention to which was called by Judge Carpenter, who requested that the jurors remember the provisions of the law and if at any time while they still remain on the grand jury any violations of the law are suspected in this city and county to proceed at once with an investigation.

STANDARD HOMES TO BE ERECTED BY GOVERNMENT

London, August 27. (By Mail)—Specifications of the new standard houses, complete from the composition of mortar and cement and the thickness of walls to such details as niches for bedroom dressers and hooks for garden clothes-lines, have been issued by the Ministry of Health. The standard houses, with alterations where necessary to meet local conditions, will be constructed in all government-aided housing projects.
The prospective resident, with a set of these specifications may follow the construction of his home from the excavation stage through the bricklaying, and fitting and painting.

Standard drain pipes, sinks, cisterns, bathroom and laundry appliances, cupboards, cloak rails, doors and windows are specified. Indicating the substantial character of the houses it is proposed to build under these specifications, no outer wall is to be less than 9 inches thick. Each house is to have its own hot water supply system.

SPECIAL COMMITTEE OF COUNCIL MAKES EXHAUSTIVE REPORT

Comprehensive Exhibit Silled With Council Monday Night on Condition of Electric Company.

Detail Facts Bearing On Application For Increased Rates Gathered and Compiled to Assist Council.

At the Monday evening session of the city Council, the Council chamber was filled with citizens interested in new improvements and those expecting action on the question concerning the extension of Grove Avenue. Council was opened with a joint session of

Council and the trustees of Union Township. The regular session of Council followed this action in the joint meeting of the Council and the township trustees the report of George Gossard, superintendent of the Washington cemetery, was read by the clerk. The amounts received during the months of July, August, September were, July \$418.00, August \$290.00, September \$825.00. Total received \$1,537.00. On hand July 1st \$855.14. Total \$2,392.10. Paid on \$1,358.24. Balance October 1st \$1,033.86. The meeting then adjourned and the regular session of council was called.

The report of the Examining Committee of the Washington Gas and Electric Company was presented, but no action was taken because of the absence of the chairman of the Service Committee. Hon. C. A. Reed, representing the Washington Gas and Electric Company stated that the Company would be greatly pleased if steps were taken in the matter immediately.

It seems quite a long time since council appointed a special committee composed of E. A. Ellis and John N. McFadden, of this city, and Andrew Foster, of Columbus, to inquire into in detail, the affairs of The Washington Gas and Electric Company and make a report to council, in order that the application of the company, for

an increased electric rate, might receive proper consideration and be intelligently and justly disposed of.

Yet when the very comprehensive report of the committee, filed with council on Monday night, is examined, consisting, as it does, of some fifty odd typewritten pages, disclosing a mass of detailed information, tabulations of figures and comparisons in totals, covering a period of five years and seven months, the time consumed—six weeks—in gathering and compiling the information and presenting it all in intelligible form seems short indeed.

The report seems to be exhaustive on the subject of the inquiry. It should be of great assistance to council and the committee is entitled to praise, not only for the very exact manner in which it has conducted its work and presented its findings, but for the speed with which it has gone about and finished the work given it to do.

To the people generally the mass of statistical information contained in the report does not convey, at a glance, the information sought, the committee having contented itself, very properly, with gathering and furnishing the information and with holding all recommendations and conclusions.

There are some important features, however, that seem to be very clearly disclosed in the report. One is that the electric company receive more for its electricity outside of Washington than it does inside the city. New Holland, Jeffersonville and Bloomington are not being supplied by the local company with electric current at any cost to the consumers of Washington. The localities mentioned are, each one of them, paying their own way. That fact seems clear enough.

Schedules disclose that for the five years and seven months preceding August 1st, 1915, the revenues and expenses per K. W. hour for current outside of Washington C. H. was as follows:

	1914	1915	1916
Revenues14747	.14038	.13857
Expenses06064	.05827	.05992
1917	1918	1919	
Revenues13753	.13556	.1338
Expenses07176	.08407	.0676

During the same period inside of Washington the schedule of revenues and expenses per K. W. hour is as follows:

	1914	1915	1916
Revenues07548	.07547	.0675
Expenses06064	.05827	.0599
1917	1918	1919	
Revenues06243	.06954	.0691
Expenses07176	.08407	.0676

Thoseschedules seem to refute positively any contention that Washington consumers are paying for, or are asked to pay for, any part of the expense of furnishing current outside the city.

Statement No. 2 of revenues, expenses, profits and losses, from all operations, both inside and outside of the city of Washington, including the three branches of the service, electricity, gas and hot water heating, exhibits, perhaps, with the greatest clearness the conditions of the company's affairs, during the period under investigation and gives, at a glance the information in which the public is most interested.

The general statement shows that during the year 1914, the company's gross revenues totalled \$67,986.66, the total expenses, \$44,299.77, leaving a total profit for that year of \$23,686.89 while for 1915 the revenues totalled \$73,279.07, the expenses, \$46,663.38, a profit of \$26,615.69; for 1916 the total revenues were \$76,677.43; the expenses \$53,392.31, and the profit \$23,285.12. For the year 1917 the total revenues were \$83,291.13, the total expenses \$75,070.63, and the total profit \$11,320.48. For 1918 the total revenues were \$92,050.51; the total expenses \$81,873.30, and the profit \$10,177.21, and for the seven months of 1919 the total revenues were \$55,776.43, the total expenses \$44,802.66, and the profit \$10,973.77.

Beginning with 1915 the excess total of revenues over expenses has shown a steady decline until the seven months period of the current year and the subsequent five months not covered by the report may change that total materially.

In arriving at the totals of revenues, expenses and profits for the period mentioned, the committee has, very correctly, kept each branch of the service, both revenues and expenses, separate so that, at a glance it may be seen just how each department has fared during the periods included in the report.

The electric plant showed an excess of revenues over expenses, including the whole service both inside and outside of Washington in 1914 of \$12,826.33; in 1915 of \$15,413.97; in 1916 of \$12,547.54; in 1917 of \$3,556.84; in 1918 a loss of \$378.09 and in the seven months of 1919 an excess of revenues over expenses of \$6,717.98.

Inside of Washington the electric department showed an excess of revenues over expenses in 1914 of \$6,206.29; in 1915 of \$7,638.38; in 1916 of \$3,917.87; and in the seven months of 1919 an excess of revenues over expenses of \$706.80 is shown. In 1917, however, the electric department

inside Washington, showed an excess of expenses over revenues, totalling \$4,518.97 and again in 1918, that department is shown to have expended \$7,179.72 more than its revenues totalled.

In arriving at the total expenses the committee has not taken into account any dividends on preferred or common stock or any income on the sum invested in the property of the plant which is placed now at \$356,696.30, because that is the expenditure for plant property as charged on the books of the company representing the company expenditures and which amount, the committee states, may be less or more. That sum does not take into account the increased value of the property, but represents its cost, most of it purchased some years ago.

In totalling the expenses, however, the committee has included the interest on borrowed money and the interest on the bonded indebtedness.

The company is carrying a bonded debt of \$50,000 and has issued and has outstanding \$200,000 of common stock.

Taking the general summary statement, above referred to, the excess of revenues over expenses during the years 1917 and 1918 would have returned a dividend of about two per cent while the electric branch of the service, taken alone, shows a loss of that much and more for those years.

If the real investment is taken as the basis upon which the excess of revenues over expenses should be rested for an earning percentage the return shown on the actual investment is reduced by one-half.

The committee reports that the larger expense totals during the period 1916-1917-1918-1919 may be attributed to higher salaries and wages, increased cost of coal and general market conditions and "requires no comment."

These are the outstanding facts disclosed by the report which council has now received for consideration.

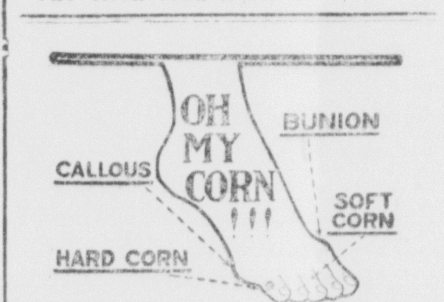

The other elaborate and comprehensive schedules, seem to be the detail facts upon which the general showing is based and authenticated.

A petition signed by a large number of citizens was read by the clerk asking that steps be taken for the paving of Dayton Avenue from the corporation line of Jupiter street to Temple street via Water street. The city solicitor was instructed to prepare a resolution to be presented at the next meeting.

Another petition was read by the clerk asking that a sewer be placed on Forest street from Rawling to Gregg street. This was referred to the Service Committee.

Council adopted a resolution for the placing of cement side walks and gutters on Western Avenue from the east side of North street to the west side of Pearl street.

Here's a Real Treat

GIVE the family a chocolate pudding made rich and creamy with Every Day Milk. It will be so full of pure, milk flavor that you yourself will wonder how you made it at so little expense.

You see, a sixteen ounce tin of Every Day Milk is really all the cream, all the richness, all the butter fat, of over a quart of rich pure milk, only most of the water has been taken out—and nothing has been added.

My family says it looks like cream—and it takes the place of cream.

It makes me independent of the ice man and the milk man. It is always handy—always germ-free and pure—always ready for use—and always has the same delicious cream-like flavor.

Every day use Every Day.

FAYETTE FARM
BUREAU NOTES

(By L. H. Goddard, Sec'y.)

Classification of Property and Graded Automobile Tax.

It has been stated by prominent Fayette Countians that it was necessary to pass the amendment to the Constitution under which property may be classified for taxation if we were to pass a graduated automobile and truck tax law.

If this is true it is a strong argument for Classification. Most owners of autos and trucks are so anxious to have good roads constructed and maintained that they are in favor of a law that will place a tax on such machines that will be graded in accordance with the power of the machine or the load to be carried.

But is it true? Let Mr. C. S. Gonswer, an official of the Ohio Taxpayers' League, answer. It will be remembered that it is the business of this League to bring about the adoption of the Classification Amendment and that it has raised a great many thousands of dollars for that purpose from holders of intangible property. In an article in the September issue of the Ohio Motorist, headed "Arguments for Classification" Mr. Gonswer states:

"When the General Assembly considered its legislation in June of this year and adjourned until December to give the people an opportunity to adopt the Classification Amendment at the November election, there was pending before it a bill establishing a graded auto license tax which would have yielded hundreds of thousands of dollars in tax revenue from automobile owners over and above what these automobile owners now pay. That bill is still pending and in December it will

be enacted into law unless Classification is adopted."

From this official statement of the Ohio Taxpayers' League it will be evident that we have no need to pass Classification to get a graded auto license law.

Will it not be wise to kill the unfair Classification Amendment, which cost Kentucky well nigh a million dollars tax on intangible property, and then proceeded in a courageous way to make such changes in our existing law as will enable us to raise sufficient funds to carry on the necessary business of the State and Counties, after a careful budget of necessary expense has been made?

PRAISE FAYETTE
YOUTH'S VOICE

The following article is from the Greencastle, Indiana, Daily Banner, and relates to a son of Prof. M. E. Wilson, of Jeffersonville, who is noted for his exceptionally fine voice:

"At the chapel hour Tuesday morning in Meharry Hall, Mr. Omar Wilson, sang several numbers. Mr. Wilson is the new professor of voice in the DePauw School of Music and takes the place recently held by Professor Cowles. Mr. Wilson is a graduate of the Conservatory of Music of Cincinnati and for two years was a member of the faculty of that institution. He was in the army during the war and was lieutenant in the aviation service. Upon his discharge from the army he resumed his profession and for the past three months has been on a tour with the Chicago Light Opera Company.

Mr. Wilson sang the following numbers Tuesday morning.

Aria from "Maggie Flute," Mozart. Little Mother of Mine, Burleigh. A Man's Song, Burleigh. Deep River, Burleigh. Invictus, Huhn.

As an encore number "Irish Names" by Hilton Turney was given.

"Mr. Wilson has a deep baritone bass voice which he uses in an effective manner, and his treatment of his short program was well done throughout and was an evidence that the DePauw School of Music has one of the best voices heard here in years. Mr. Wilson's future appearances will be eagerly looked to by Greencastle and DePauw people who were well pleased with his initial appearance."

CAPTAIN CRAIG
TO BE IN LINEUP

Dave Craig, captain of the Washington High School football team, will be in the lineup for the first time this season when Greenfield plays here next Saturday. Craig was injured in practice at the start of the season and has not been able to fill his position at quarterback. It is expected that Rogers will go to end where he has performed for two seasons past.

Greenfield played Hillsboro to a 6 to 6 tie last Friday on their home field. Xenia has defeated Hillsboro and Washington has defeated Xenia so it looks like the dope will favor the Blue and White team when they clash with the McClain gridders this week end.

Their Medicine Chest For 20 Years

DR. LEWIS' MEDICINE

IT is characteristic of

folks after they pass the allotted "three score year and ten" to look back over the years that are gone and thoughtfully live them over.

I had myself, at seventy-one, frequently drifting back a quarter of a century, when I see myself in the little drug store I owned at Bolivar, Mo., making and selling a vegetable compound to my friends and customers—what then then known only as Dr. Lewis' Medicine for Stomach, Liver and Bowel Complaints.

For many years while I was perfecting my formula I studied and investigated the laxative and cathartic on the market and became convinced that their main fault was not that they did not act on the bowels, but that their action was too violent and drastic, and upset the system of the user, which was due to the fact that they were not thorough enough in their action, acting simply acting on the surface or small intestines, while others would act only on the lower or large intestine, and that they almost invariably produced a habit requiring augmented doses.

I believed that a preparation to produce the best effect must first touch the liver, then act on the stomach and entire alimentary system. If this was accomplished, the medicine would produce a mild but thorough elimination of waste without the usual sickening sensations, and make the user feel better at once.

After experimenting with hundreds of different compounds, I at last perfected the formula that is now known as Nature's Remedy, which I truly believe goes further and does more than any laxative on the market today. That thousands of letters from users have convinced me I was right, and that the name of Nature's Remedy as a family medicine ever known, he may have used it for twenty-two years, never has it increased the dose.

My knowledge of medicine and the results of its use in my own family and among my friends before I ever offered it for sale, caused me to have great faith in Nature's Remedy from the very start.

I had never had myself suffering the age when I was twenty-five, and I had gone to another life, my greatest pleasure is to think of it and read the letters that come from those who have used it as old or older than I, who tell of having used Nature's Remedy for ten, fifteen and twenty years, and how they and their children and grandchildren have been benefited by it.

It is a comforting thought, my friends, for a man at my age to feel that aside from his own peace, one has done something for his fellow man. My greatest satisfaction, my greatest happiness today, is the knowledge that tonight more than one million people will take a Nature's Remedy (NR Tablet) and will be better, healthier, happier people for it. I hope you will use one of them.
